Full-stack software engineer with 8+ years of experience building and supporting web applications across C#, .NET, JavaScript, PHP, React, and WordPress environments. Skilled in AI-assisted development, production delivery, cloud and DNS operations, cross-functional collaboration, and practical troubleshooting within Agile teams.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, PHP, Java, SQL

Frameworks & platforms: .NET Core, ASP.NET, React, Node.js, WordPress, CodeIgniter, Joomla, Shopify

APIs & data: REST APIs, third-party integrations, JSON, authentication, MySQL, PostgreSQL

Cloud & delivery: Azure DevOps, AWS, Cloudflare, Docker, GitHub Actions, CI/CD pipelines, Git, Jira, Trello

Engineering practices: TDD, SOLID principles, clean code, refactoring, Agile, Scrum, debugging, troubleshooting

AI-ASSISTED DEVELOPMENT

Tools: Claude, OpenAI Codex, GitHub Copilot, ChatGPT, Google Gemini, and Cursor

Applied experience: Code generation, refactoring, debugging, test development, documentation, technical research, prompt design, context management, human-in-the-loop review, and agent-assisted workflows.

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER | CD Baby

Oct 2020 - Present

Integrated multiple AI services, including Hive AI, to review album artwork for inappropriate or inaccurate content, reducing rejection rates from digital service providers by approximately 30%.

Integrated the Music Fights Fraud Alliance (MFFA) service to identify bad actors attempting to submit music they did not own, strengthening content authenticity protections.

Build and enhance production applications and REST API integrations using C#, .NET, JavaScript, TypeScript, React, PHP, JSON, and authentication workflows.

Deliver applications through Azure DevOps and GitHub Actions CI/CD workflows, use Docker, and manage production DNS configurations through Cloudflare.

WORDPRESS DEVELOPER | DreamHost

Aug 2017 - Oct 2020

Diagnosed, maintained, and updated custom websites built with PHP, WordPress, CodeIgniter, Concrete5, and Joomla.

Provided customer-facing and internal technical support for WordPress and PHP updates, compatibility issues, and site troubleshooting.

WEB DEVELOPER | Side Dish Studios

Jan 2017 - Mar 2017

Built a custom content management system for a social networking site using CodeIgniter.

Improved mobile usability with responsive JavaScript, jQuery, and Skeleton development; refreshed a Shopify interface and implemented a custom PHP contact form.

EDUCATION

Computer Programming | Epicodus

2016 - 2017

Bachelor of Arts | University of Oregon

2004 - 2008
